My Media Choices (media balance and well-being)

<https://www.common sense.org/education/digital-citizenship/lesson/my-media-choices>

Media – all of the ways that large groups of people get and share information

Balance – a situation in which different elements are equal or in the correct proportions

- Know that our media consumption choices can have an effect on the way we feel or others feel.
- Know what different types of media there are for us to choose from (playing a game online, FaceTime, newspaper, YouTube)

- Understand their emotional responses to evaluate how healthy different types of media choices are.
- Begin to develop their own definition of a healthy media balance.

- Learn the "What? When? How Much?" framework for describing their media choices.
- Recognise how different media can make us feel

Private and Personal Information (privacy and security)

<https://www.common sense.org/education/digital-citizenship/lesson/private-and-personal-information>

Hardwired – make (a pattern of behaviour or belief) standard or instinctive

Personal information – information about ourselves that can be fun to share

Private information – information about ourselves that we should not share

- Know the difference between private and personal information.
- Know what information can be shared online (likes, opinions)
- Know that sharing is hardwired into our brains and has positive benefits
- Know that private information should not be shared unless they have permission from an adult.

- Understand why it is risky to share private information online.
- Understand that we want to share with others and it is good because it helps us to learn, stay connected and persuade.

- Identify the reasons why people share information about themselves online.
- Share appropriate personal information but not private information.
- Recognise when someone (or a site) is asking for private information
